

WHERE WE RECYCLE

- Recycle at blue outdoor comingle bins located throughout campus, usually next to the trash bins
- Small recycling containers are provided for all student housing
- Glass recycling is located near the residential trash/recycling centers in the 55-gallon black barrels.

Please be sure to place the appropriate materials in the correct container.

A single incorrect item can cause a whole load of recyclables to be rejected and dumped into a landfill.

WHY WE RECYCLE

As Christians, we are called to love and protect God's creation.

George Fox University is dedicated to reducing the amount of trash that ends up in public landfills. You can help us by recycling.

Additional recyclable items:

- Motor oil
- Fluorescent light bulbs
- Metal
- Paint
- Ink cartridges

Contact Plant Services at ext. 2010 if you have any of these items to be recycled, or if you have other questions about recycling.

All proceeds from refundable cans/bottles, glass and newspaper benefit F.I.S.H. (Friends in Service to Humanity), Newberg's local food bank.

WHAT WE RECYCLE

COMING

WHAT TO INCLUDE/INSTRUCTIONS

WHAT TO KEEP OUT

Paper	Newspapers, magazines, catalogs, paperbacks, junk mail, office paper, egg cartons, paper tubes, cereal boxes	Bath tissue, paper towels, freezer boxes, cups or plates with food residue, wax, foil or plastic
Corrugated cardboard	Flatten cardboard boxes	Wax-coated cardboard or food residue; pizza boxes, glass bottles and jars
Milk cartons and drink boxes	Rinse clean	Plastic straws or lids
Plastic bottles and tubs	All plastic bottles; yogurt-type containers (6 ounces or larger), rigid plant pots (4 inches or larger) and buckets (5 gallons or smaller).	Plastic lids, trays, bags, take-out boxes, motor oil, pesticide or herbicide containers
Metal cans, foil and aerosol cans	Empty and non-toxic metal aerosol cans and food and beverage cans. Rinse food cans and put metal lids inside cans and crimp closed.	Food residue and plastic caps. Do not puncture aerosol cans or remove nozzles.
Scrap metal	Smaller than 30 inches in any direction and less than 30 pounds.	Plastic, wood or other non-metal attachments.
Glass bottles and jars	Clear and colored; rinse clean. No lids; no oil, chemicals or pesticides. Glass recycling is located near the residential trash/recycling centers in the 55-gallon blue barrels.	
Batteries and small electronics	Battery and small electronics recycling is available in the SUB near the Blue Zone store and EHS first floor across from the elevator. Residential battery and electronic recycling is available in the blue tubes located in the residential hall lobbies, Le Shana, and outside Beebe.	
Refundable aluminum cans and plastic bottles	Look for the Oregon redemption stamp. Water-rinsed clean and empty.
