

# INTERVENTION ALERT

Please use this form to alert the Student Life Office of any student who is struggling or who may be considering withdrawing from George Fox. Please indicate if you DO NOT want immediate follow-up with the student by appropriate personnel and are merely completing the Intervention Alert as a point of information. When appropriate and unless you have indicated otherwise on this form, this information may be shared with the Student Support Network, a group of administrators and faculty who meet regularly to discuss possible interventions for students at risk (whether academically, socially, or otherwise).
