

## INTERNSHIP PREREQUISITES

**CMCO MAJORS:** Instructor's permission.

**Comm Arts and Org Comm Majors:** According to the University catalogue, a student may only apply for an internship if they are a Communication studies major, hold a Junior class standing, and have completed 9 credits in COMM coursework.

First year students are generally not allowed to complete an internship for credit. Sophomores are rarely allowed under special circumstances. The Department wants you to succeed in your internship and we want to make sure you have had sufficient coursework completed before we send you out into the "real world."

We realize exceptions do arise and a student may petition the Internship Director to be allowed to register for an internship if the pre-requisites have not been met.

**Students who do not meet the prerequisites for COMM 275/475 may enroll on COM 305 Professional Communication Activities. See Internship Director for clarification.**
