

WHO CAN SUPERVISE MY INTERNSHIP?

1. All internships require a direct supervisor to oversee your work.
2. The supervisor is generally someone who has job experience or is an expert in the same field/area you are doing your internship.
3. Your supervisor may **NOT** be a family member, relative, fellow undergraduate student, friend, etc., which may cause a conflict of interest for the learning and evaluation process.
4. The supervisor must agree to oversee your internship and provide evaluation feedback at the end of the semester.
