

Tiffany Rodriquez, MA

Adjunct Faculty

Email: trodriquez@georgefox.edu

Due to my love for the opportunities a higher education affords, I have been teaching at the college level for 12 years. I currently teach full time at a community college in California, and my job duties include teaching courses, developing new courses, various committee commitments, and shared departmental administrative duties. Prior to that, I taught for many other public and private universities.

I now feel blessed to have the opportunity to teach at George Fox University. I have enjoyed working with and making new friends while taking GFU courses. GFU faculty have a high standard of engagement with students and course material, and I look forward to doing the same for student in the DPS program.

Academic Background

- EdD, Higher Education Leadership, George Fox University (in progress)
- MA, Communication Studies, California State University, Fresno
- BA, Management and Organizational Development, Fresno Pacific University
- AA, Liberal Arts, Reedley Community College

Expertise and Research Interests

I typically can be found at our regional communication conference either presenting on panels or facilitating panels. Yearly I am a blind reviewer for panel and paper submissions for our local regional conference or other regional communication conferences in the United States.

Primary Teaching Responsibilities

- LACC 201 Writing for Adults I
- LACC 202 Writing for Adults II
- LACC 215 Personal and Professional Assessment

Outside the Classroom

Even though it seems I have been busy earning my degrees and teaching at various institutions, I found time to have a family. I am the proud mama of four kids: 24, 23, 20, and 18 year old. My boys are 24 and 23 (one in the Marines and the other ARMY – with college degrees as well) and my daughters are 20 (community college in the Silicon Valley) and 18 (freshman at UCSB). We also have two dogs: a Pomeranian and some type of pound puppy terrier. As a family, we enjoyed camping in the mountains or at the beach. I now stay active (and balanced) doing the things I used to do with my adult children: biking, hiking, jogging, yoga, gym, etc. When the kids come home, it's always nice to get a run in with them or a visit to the gym.
