

## MAR 14 PAT STONE

Psychologist, Private Practice

### Fighting for the Dream: Veterans' Road to Recovery

Veterans face challenges achieving the American Dream; the high cost of war is both personal and national. Pat Stone speaks from experience. He was wounded in combat while with the U.S. Army in Vietnam, had specialized in treatment of military veterans for 24 years, and has served as a policy advisor for the U.S. Senate Committee on Veterans Affairs. Stone's PhD is from Biola University.

## MAR 28 FACULTY STORIES

### Being More than Dreamers: Incentive and Stewardship

George Fox faculty discuss the challenges to the Future of the American Dream that they have observed and ways and reasons ordinary people contribute to the common good.

## APRIL 11 EXHIBIT

### Liberal Arts and Critical Issues Research Exhibit EHS and Hoover; noon to 4pm

Senior research teams present their plans for the Future of the American Dream.

In the Liberal Arts and Critical Issues (LACI) program, GFU seniors demonstrate their ability to integrate specialized knowledge and general education with Christian faith as they consider a significant public issue of current concern.

### Caitlin Corning and Elizabeth Todd

Directors, Liberal Arts and Critical Issues (LACI) Program

LIBERAL ARTS: CRITICAL ISSUES  
THE FUTURE OF THE  
AMERICAN DREAM  
SPRING LECTURE SERIES  
LECTURE SCHEDULE  
HOOVER 105  
4:40-5:40, 7:00-8:00

# LECTURE SCHEDULE

**JAN 24 DR. KERRY IRISH**

Professor of History, GFU

## Declarations and Dreams

Learn about the American Dream and the strands that have developed over time. Kerry Irish's research includes political and diplomatic history. He received his PhD in history from the University of Washington.

**JAN 31 DR. MARK HALL**

Professor of Political Science, GFU

## Invigorating One Nation Under God

Hear about culture shapers striving for a Christian America, the rise of the Christian Right in the late 20th century, and its analysis of the American Dream. Mark Hall's primary research areas are American political theory and the relationship between religion and politics. His PhD in political science is from the University of Virginia.

**FEB 7 TBA**

## Securing the Separation of Church and State

The American Civil Liberties Union is one of the organizations seeking to shape the Future of the American Dream. Hear responses to the idea of a Christian America and the case for efforts to establish and maintain a secular public sphere.

**FEB 14 STEVE SHERWOOD**

Assistant Professor of Religion, GFU

## Passing It Forward: The Millennial Generation Inherits the Dream

Hear about the experiences and expectations of the Millennial generation and how experts predict they will influence the American Dream. Sherwood's research interests include youth ministry, postmodern culture, and theological interaction with pop culture. His MDiv in Emerging Leadership is from George Fox Evangelical Seminary.

**FEB 21 DR. ROBIN BAKER**

President, GFU

## Alienating, Others and the American Dream

How have Americans responded in times they feared the American Dream was in jeopardy? Baker has been part of the GFU community since 1999 and president since 2007. His research has focused on the American Civil War and Reconstruction, 19th-century American politics, and the history of the American South. Baker's PhD in history is from Texas A&M University.

**FEB 28 PAUL HARMON**

Director of Technology Development,  
Trimble Navigation

## Engineering the Dream: Innovation and Vocation

Paul Harmon directs technology development for the Mobile Computing division of Trimble Navigation. He developed the DeskJet print mechanism and HP's 2 picoliter inkjet engine that enabled desktop photoprinting. Harmon is also the founder of the StandUpGirl Foundation assisting young women in crisis pregnancy. His MSME is from Stanford University.

**MAR 7 KENT THORNBURG**

Oregon Health & Science University  
Director, Heart Research Center  
Professor of Cardiovascular Medicine

## Embodying the Dream: Health and Disease in America

Consider how health matters for more than individual well-being and the extent its absence restricts the future of the American Dream for others. Kent Thornburg leads a team of scientists studying how mechanical forces alter gene expression in the developing embryo heart.
