

Fall 2019
Youth Science Classes

Classes begin the week of October 7th and end the week of November 18th. (7 weeks). Youth Science Classes are non-profit, and we strive to keep costs as low as possible. For registration and additional program information, please see the Science Outreach website at http://www.georgefox.edu/science_outreach or call Lorie Brubaker at 503-554-2728.

Ages 6 to 8 (\$60.00)

Let's Learn Anatomy and Physiology

Fridays, 10:00-11:00am, First class is October 11th., EHS Room 103

Teachers: Loveleen Brar and Sarah Thompson

God has made our bodies so wonderfully to ensure that we function to live a happy and wholesome life. In our class, we will have fun looking deep into some of the systems of the human body. Students will do exercise and activities so that they can fully understand how we have been created to function. Using models, we will study closely the heart, eye, ear, skin and much more!

Ages 9-11 (\$70.00)

Neuron to Something!

Mondays, 3:00-4:30pm, First Class is October 7th., EHS Room 203

Teachers: Eliana Swan and Lili Cummings

Did you know that there are more nerve cells in the human brain than stars in the Milky Way? The brain and other parts of the nervous system are incredibly complex, yet they help us live our lives every day without us even noticing them. In this class, we get to explore the anatomy, the functions, and the applications of the nervous system.

Ages 12-14 (\$80.00)

Conservation of Our Environment

Fridays, 12:30-2:30pm, First Class is October 11th., EHS Room 103

Teachers: Andrea Reichle and Carmen Hixson

What makes plants grow? How is paper made? Why does pollution hurt the ecosystem?

To answer these questions, we will learn about the plants, animals and the environment around us and how we can better conserve and protect this beautiful world we live in! If you want to learn about recycling, composting, plant and animal interactions, and our part in it all, this is the class for you!
