Work Experience

George Fox University, Newberg, OR

BSW Field Coordinator, August 2014 – Present

Oversees and maintains the BSW field education program with the School of Social Work. Maintains and develops partnerships with community organizations to establish field internships. Nurtures relationships with field supervisors and field liaisons within the field program. Oversees the placement of students into internships and provides oversight and guidance for changes needing to be made in placements for agency or student led reasoning. Monitors BSW students in field placements, maintains field education program policies, coordinates the annual BSW student Field Fair, oversees accurate and appropriate maintenance of student field files of internship hours and paperwork. Focuses on providing consistent and professional communication with all parties involved in the field placement program. Empowers Social Work students to advocate for themselves and to utilize skills learned in the classroom in the field setting.

Assistant Professor of Social Work, August 2013 – present

Courses taught (BSW): Practice I: Micro Level Social Work (2 sections), Foundations of Social Work Practice, Social Work with Children, Practice II: Social Work with Groups and Families (2 sections), Practice III: Macro Level Social Work, Field Practicum 475 (Junior Level)

Develops professional relationships with students and provide ongoing mentorship for their work within the program, in different realms of their life, and professional choices for post graduation options.

Erin S. Johnson, MSW

Adjunct Professor, September 2009 – July 2013

Courses Taught (BSW): Diversity Issues in Social Work Practice, Introduction to Social Welfare, Field Practicum 475, 476, 477 (Junior and Senior year), Faculty Field Liaison for Field Placements, Foundations of Social Work Practice.

Lutheran Community Service, McMinnville, OR

Child and Family Play Therapist, November 2009 – August 2013

Provided long term and short-term mental health counseling for children, adolescents, and families. Specialized in the use of play therapy. Focused work on children who have a history of trauma and abuse, mostly sexual abuse. Utilized Narrative, CBT, Attachment Theory, and Trauma Informed therapeutic interventions within play therapy with children and families. Utilized techniques and interventions based in CPS and MI trainings. Worked in collaboration with county program to provide PCIT. Worked continually towards completion of hours for LCSW licensure within the state of Oregon.

Program Coordinator Family Stabilization Specialist (FSS) Services, March 2013 - August 2013

Worked to develop and implement program to meet needs of children and families experiencing significant mental health issues causing disrupted home and school placement. Program provided intensive home-based family support services with contracts set up through Oregon Health Program Insurance (OHP) at the county level. Supervised service provider within this program. Worked in conjunction with County Mental Health to manage referrals, intake, billing, and quality of service.

Program Coordinator In-home Safety and Reunification Services (ISRS), October 2010 – August 2013

Provided supervision and management of ISRS program, which offers intensive home-based services to families involved with Child Protective Services (CPS) to decrease number of children in foster care. Attended monthly staff meetings with CPS caseworkers and supervisors to discuss caseloads, case-plans, family progress and current barriers to services. Duties included compilation of monthly reports and billing, management of referrals, extensions, and termination of services. Provided weekly supervision to ISRS workers and led team meetings on monthly basis.

Parent Education Program Coordinator, November 2009 – August 2013

Taught parenting classes with the use of Make Parenting A Pleasure evidence based parent education curriculum. Management of program included scheduling classes, oversight of parent educators, training of parent educators, and work with community partners to grow the program, number of classes offered, and increase diversity of location and time.

Erin S. Johnson, MSW

Family Continuity Programs, Inc. Beverly, MA

Family Therapist, January 2005 – May 2008

Provided strength-based, home based, short-term family therapy. Therapy work included diagnostic evaluation, crisis prevention, treatment planning, DSM-IV Diagnostic Evaluations, collaboration with providers, networking to ensure families/individuals obtained needed and appropriate services and goods, and advocating within greater state systems for the client's rights and needs. Referrals for services were made through the Department of Social Services and MassHealth.

Center for Family Development, Health and Education Services, Beverly, MA

Mental Health Therapist, May 2004 – Aug. 2004

Mental Health Therapist - Internship, May 2003- May 2004

Provided individual therapy services to children, adults, and families. Collaborated with schools and advocated for special education services and appropriate IEP plans for children. Completed DSM-IV Diagnostic Evaluations and treatment planning. Collaborated with community agencies and programs to provide support for families and individuals.

Family Continuity Programs, Inc., Beverly, MA

Community Support Case Manager, September 2001- May 2003

Worked with adults, adolescents, and children experiencing mental health issues referred by MassHealth due to continuous or numerous psychiatric hospitalizations. Empowered individuals through developing community supports and obtaining services from outside agencies and resources. Provided home based and community based services.

Family Support Team, BSW Counselor, September 2001 – May 2003

Provided intensive, short-term, home based and community based services for families following a child's discharge from a psychiatric hospitalization. Services focused on development of safety plans, therapeutic family services (provided by master's level clinician), community support services, and mental health services.

Research and Presentations:

Presentation: Providing trauma informed care within relief nursery classrooms. January 2014

Provided presentation and training for staff, interns and volunteers at A Family Place, a relief nursery in McMinnville, OR, which provides therapeutic classroom experience and home visits to the most at-risk children within Yamhill County. Presentation covered trauma, effect of trauma on brain development, appropriate interventions and supportive classroom activities and services for children who have experienced trauma.
